Re: Fall 2026 Leaf Season

Dear Municipal Partner,

As we enter peak fall leaf season, we anticipate significantly higher volumes of yard waste across the communities we proudly serve through late November. We remain committed to providing world-class service to our municipal partners and communities throughout the season.

To maintain reliable collection during this period, curbside trash collection will continue to be our top priority each week. There may be occasions when yard waste cannot be collected on its regularly scheduled service day due to the extraordinary volume generated during peak leaf season. When this occurs, our teams will continue servicing yard waste through the weekend to ensure routes are completed. If service delays are anticipated, we will proactively communicate with the affected municipalities through your designated Municipal Representative.

Communication and resident education play an important role in a successful leaf season. We would appreciate your partnership in sharing proper disposal guidelines with residents including:

- Place yard waste neatly at the curb in an organized manner.
- Bags should be securely folded or rolled closed, with no yard waste overflowing from the top.
- Ensure yard waste bags and reusable containers do not exceed approved weight limits.
- Clearly mark all reusable containers as “Yard Waste” or “Compost”.
- Place only acceptable yard waste materials out for collection.

For ongoing leaf season updates, please encourage residents to visit our Leaf Season resource page and follow Priority Waste on social media. We will regularly post important reminders, collection information, and seasonal updates that can be shared through your municipal communication channels.

Thank you for your continued partnership and trust. Together, we can ensure a smooth and successful leaf season while maintaining the high level of service your communities expect.

Sincerely,

Aaron Johnson
Chief Executive Officer
Priority Waste
